Email: surajpatel17@gmail.com

Mobile: +91 7974603110

SKILLS

Languages: C++, Python, C, Java, SQL
Tools/Platforms: PowerBI, Tableau, Git, GitHub, MySQL, Jupyter Notebook
Framework & Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Soft Skills: Problem-Solving, Team Player, Adaptability

PROJECTS

Hand Gesture Controlled Youtube | Python, OpenCV, MediaPipe Aug 26

- Engineered a real-time touchless YouTube control system leveraging OpenCV and MediaPipe for webcam-based hand landmark tracking and gesture recognition.
- Orchestrated gesture-driven controls for video playback, navigation, volume, muting, seeking, and fullscreen interaction.
- Integrated PyAutoGUI-based browser automation with frame-based gesture validation and cooldown mechanisms to deliver responsive and reliable hands-free control.

Multi-Language Online Compiler & IDE | Python Jul 26

- Created a web-based compiler supporting C, C++, Java, and Python with an interactive code editor and execution environment.
- Implemented real-time code compilation/execution, custom input, output display, and error handling through a backend-powered architecture.
- Designed a responsive and user-friendly IDE interface with language selection, code editing, and execution controls for a seamless coding experience.

India Population Trends Analysis | Python, HTML, ML Predictive Analysis May 26

- Analyzed India's population trends using Python, Pandas, NumPy, Matplotlib, and Seaborn, identifying patterns in population growth, age distribution, urbanization, literacy, and regional variations.
- Performed data cleaning, preprocessing, Exploratory Data Analysis (EDA), and statistical analysis on demographic datasets to uncover meaningful trends and socio-economic insights.
- Developed data visualizations including line charts, bar graphs, and heatmaps to communicate demographic insights effectively and support data-driven decision-making for policy and planning.

LinkedIn Job Analysis Dashboard | PowerBI Desktop Apr 26

- Built an interactive Power BI dashboard to analyze LinkedIn job market data, identifying hiring trends, industry demand, salary distributions, job roles, and in-demand technical skills.
- Performed data cleaning, transformation, and data modeling using Power Query and DAX, optimizing datasets for accurate analysis and dashboard performance.
- Implemented interactive visualizations, KPI indicators, slicers, and filters to deliver actionable business intelligence and data-driven insights into employment trends, skill requirements, and career opportunities.

CERTIFICATES

Tata GenAI Powered Data Analytics Job Simulation Forage	Jul 26
Problem Solving HackerRank	Jan 26
SQL HackerRank	Jun 25
C Techgig	Jun 25

ACHIVEMENTS

- Practiced and solved 300+ DSA problems across LeetCode, GeeksforGeeks, and CodeChef, building strong problem solving and logical thinking skills.

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering;	Aug 24 – Present
CGPA: 7.53	
Adarsh Academy School	Dhamnod, Madhya Pradesh
Intermediate with PCM;	Mar 22 – May 23
Percentage: 76	
Adarsh Academy School	Dhamnod, Madhya Pradesh
Matriculation;	Mar 20 – May 21
Percentage: 59
